Jest Kidding!

Cherry Brandy

Knowing that the minister was very fond of cherry brandy, one of the church elders offered to present him with a bottle on one consideration: that the pastor acknowledge receipt of the gift in the church paper.

"Gladly," responded the good man.

When the church magazine came out a few days later, the elder turned at once to the "Appreciation" column. There he read: "The minister extends his thanks to Elder Brown for his gift of fruit and for the spirit in which it was given."

'Angel'ed Eggs (a different take on Deviled Eggs)

Ingredients:

- 12 eggs
- 1/4 cup ranch dressing
- 6 tablespoons creamy salad dressing (such as Miracle Whip®)
- 2 tablespoons sweet pickle relish
- 1 tablespoon prepared yellow mustard
- 1/4 teaspoon celery seed
- Ground black pepper to taste
- 1/4 teaspoon paprika, for garnish

Directions:

1. Place eggs into a large saucepan, cover with water, and bring to a boil.
2. Cook for 15 minutes, and cool the eggs under a stream of cold water in the sink, 10 to 15 minutes.
3. Peel the eggs and slice in half lengthwise.
4. Scoop the egg yolks into a bowl, and mash them with a fork.
5. Mix in the ranch dressing, creamy salad dressing, pickle relish, yellow mustard, celery seed, and black pepper until thoroughly combined.
6. Spoon the filling into the egg white halves.
7. Sprinkle each egg half with a pinch of paprika.

A sudoku puzzle is a grid of nine by nine squares or cells, that has been subdivided into nine subgrids or "regions" of three by three cells.

The objective of sudoku is to enter a digit from 1 through 9 in each cell, in such a way that:

- Each horizontal row contains each digit exactly once
- Each vertical column contains each digit exactly once
- Each subgrid or region contains each digit exactly once

Solving a sudoku puzzle does not require knowledge of mathematics; simple logic suffices.

In each sudoku puzzle, several digits have already been entered (the "givens"); these may not be changed.

The puzzler's job is to fill the remainder of the grid with digits – respecting, of course, the three constraints mentioned earlier.
